Background

This slide show was presented at the Medical Library Association's 2019 conference in Chicago, IL, as part of a program called "My Favorite Tool." Presenters had three minutes to describe software, a service, or anything else that they found useful. Margaret Hoogland, the organizer of the program, was adamant that presenters not use slide shows, but this year PDFs from slide shows were acceptable.

All photographs or other graphics not credited are my own. You are welcome to adapt my presentation for other purposes; if you use my photographs, please give me credit if feasible.
